If Bought On Today's Market **Every New Fall and Winter COAT** 

In Our Vast Stocks Would Have To Sell at

\$2.50, \$5.00 to \$15 More!

The deplorable labor conditions in New York are the cause. Furs are advancing by leaps and bounds. Cloakings are much higher and extremely hard to obtain. Practically the entire New York Cloak Industry is paralyzed by strikes, deliveries are uncertain, and many of the mills that weave cloths have been closed for many months.

It is our good fortune to have several hundred of the most authentic cloth coats and fur garments in stock, bought at the old figures, before any advance in price took effect and we are selling them the same way at a fair markup or at a genuine saving of \$2.50 to \$15.00 and even \$25.00 to \$35 on the better grades if we bought today.

established a renutation for bringing down the game over the londest ranges. The superior qualities of all Peters shells, he steel reinforced head, rivet battery cup, clastic felt wathding, water-tite hevel-crimp, uniform loading - all play their part in making these H.V. shells the safe, uniform, reliable loads that are the delight of every discriminating

Powder will give you greater shot gun range, better patterns, hetter penetration - hence, more game. Where long, clean kills are desired, they are unsurpassed. The load combination is marked on every case, hox and top wad, so that you get what you want, and know what you get.

Let us tell you more about these and other superior features of the B Brand.
